

TLIC0031
Apply low risk
car driving
behaviours

Course
Description
and
Learning
Outcomes:

This unit involves the skills and knowledge required for higher-order safe driving. This unit applies to light vehicle safe driving behaviours. This includes higher-order skills involving broad cognitive, technical, communication and vehicle management. It also requires knowledge about hazard perception, risk control and safe driving behaviour, judgement, decision making and multi-tasking that builds on driver licence requirements across a range of vehicles and driving situations. Safe light vehicle driving behaviours are applied without supervision. No licensing, legislative or certification requirements apply to this unit at the time of publication.

Duration:

1. Online self paced training (Must be completed prior to practical session). Login details provided to participant upon enrolment completion.
2. On Road Training, 8am – 4.00pm, Navigator not required but can attend
3. Track training day, 8.00am - 4.30pm

Instructor:
Driver Ratio

- 1 Instructor : 1 Driver & 1 Navigator (if applicable), for On Road Day
1 Instructor : Up to 4 participants for Track Day

Vehicle
Requirements:

One registered and road worthy vehicle is required for each day.

RTO#45958

Content:

Apply relevant legislation applicable to safe light vehicle driving

- 1.1 Current road rules and regulations are identified, interpreted and applied
- 1.2 Road signs, signals and markings are identified and complied with in safe light vehicle driving activities
- 1.3 Purpose of road rules and traffic safety laws in ensuring safe and efficient regulation of traffic flow is interpreted and applied when driving a vehicle

Apply safe light vehicle driving behaviours

- 2.1 Requirements for safe light vehicle driving are applied
- 2.2 Importance of attitude in complying with road rules in relation to level of risk faced by a driver is applied when driving a light vehicle
- 2.3 Importance of road sharing principles are applied when driving a light vehicle
- 2.4 Importance of motivation to drive safely is interpreted and explained
- 2.5 Principles of proactive driving methods that maintain one's driving at a low risk are identified and applied
- 2.6 Contributing risk factors to potential crash risks are identified and taken into consideration

Apply low-risk driving strategies

- 3.1 Contributing risk factors to forming opinions and beliefs about low-risk driving are applied
- 3.2 Human factors that can influence low-risk driving behaviour are outlined
- 3.3 Low-risk driving strategies are applied and their rationale explained

Explain risk factors that contribute to accidents when driving a light vehicle

- 4.1 Contributing risk factors to accidents are recognised
- 4.2 External factors that could lead to accidents are outlined
- 4.3 Internal factors that could lead to accidents are outlined
- 4.4 Consequences of accidents in relation to relevant traffic laws and physical, financial and psychological costs to the individual and society are explained
- 4.5 Functions of vehicle operations and controls and how to recover control of a vehicle are explained

Apply operation and light vehicle control skills

- 5.1 Appropriate actions are taken to respond to hazardous situations
- 5.2 Principles of braking are applied to a high level of technical competence
- 5.3 Principles of steering are applied to a high level of technical competence
- 5.4 Slow speed manoeuvres are carried out to a high level of technical competence
- 5.5 Vehicle is operated and controlled to a high level of technical competence

Investment:

- \$1675 GST NA OR \$1375 GST NA if sharing the On Road Day

Driver

Requirements:

- Probationary or Full Driver Licence.
- USI
- Strictly no Learners.
- Must be able to drive a vehicle in accordance with the conditions of holding an Australian drivers' licence.
