

MOTORSPORT beyond the limits

PLUS

MOTORSPORT excel-erate

[Book Here](#)

18TH SEPTEMBER

10TH NOVEMBER

**Course
Description:**

This combination program provides you with the best of the Motorsport world: you commence the day on the skidpan, to experience the thrill of enhancing your car control skills and recovery in the Beyond the Limits program. Direct coaching from a professional motorsport instructor enables you to develop and practice new skills, assisting with visual, steering, gear changing and mechanical empathy skills that will ensure you are far more prepared for tarmac rallying.

After replenishing your energy with lunch, you move onto the Mallala Track for the Motorsport Excel-erate program. This is the business end of high speed driving. Once you have refined the skills at slow speeds, you must now apply these skills at high speed on a race track. You will be completing fast laps during this training whilst we also work on other techniques. The program increases in difficulty as you improve, slowly adding more to your skill set. Some of these skills are quite technical, however once you understand balance, safe limits and your car control is good, we move into correction techniques.

**WORK WITH OUR HIGHLY EXPERIENCED
INSTRUCTORS TO IMPROVE YOUR CAR
CONTROL SKILLS & LAP TIMES**

RTO 45958

**Course
